

Winter 2025 ~ 2026 Season

General Winter Preparedness Information

Dear Fuller Village Resident,

In the event we lose power, Fuller Village is a shelter in place community, which means we have emergency generators that provide heat and electricity in our common areas at Blue Hill and Brush Hill. The elevator in the Depoyan building on the Blue Hill campus is also on generator. All other elevators are not on generator and are automatically programmed to go to the ground floor. For more details regarding our emergency generators please go to the “Resident Orientation” icon in Touchtown and view the “Emergency Generators” informational sheet.

In case of an extended power outage, we will contact residents in the Villas to make sure those residents are comfortable and safe. If you are unable to remain in your home until the power comes back on, please call 617-361-7900 for assistance. We want to remind residents that if an outage is extended for a long period of time and you can no longer stay warm in your home, you may come to the first-floor lobbies at either the Blue Hill or Brush Hill Buildings until power is restored.

We will be in communication with our live answering service and will respond to your calls. If you have a cell phone, please be sure it is charged and ensure you leave it on. Please check your batteries in your flashlights or lantern to make sure they are working. If you need a lantern, please contact the front desk to request one in preparation for possible power outages. We encourage residents to have a few days supply of non-perishable foods that does not require cooking and bottled water.

Our emergency pull cord call system will work with police, fire, and ambulance. Emergency calls will be dispatched immediately. If any Villa resident needs to get to the common area, the fire department, or the Fuller Van (if running) can assist. If you are on oxygen, please make sure you have a portable tank available.

In the event of a snowstorm, the Fuller van will be on limited service. As always, please wait inside the building or your Villa to be picked up. Do not wait outside. Please be very careful when entering and leaving the buildings during snow/ice storms. Although we are very cognizant of the need to keep all walkways clear, there are times in the early morning and late evening when ice and snow has accumulated, and the clearing and salting has not yet been completed.

Fuller Village is responsible for snow removal on campuses roadways, sidewalks, and driveways during and following snowstorms. Every effort is made to clear parking spaces at both the Depoyan and Foster Buildings. A supply of ice melt will be located inside each of the building doorways. We make every effort to clear snow off Depoyan and Foster resident’s car windshields. We ask villa residents to park in their garages so that their driveways may be plowed – do not leave your car on the street so plows can properly clear roadways. If you have two cars, you may park one in our guest parking spots if necessary. We request residents to have no additional cars parked on the property (cars

of family members, etc.) during the snowstorms. Parking is limited, and this makes it extremely difficult for the plowing process to be completed.

Please do not interfere with the workers who are clearing snow. Fuller Village has instructed them on what and when things need to be done, and any deviation from their schedule makes it difficult for them to finish as quickly as possible.

If you have any concerns or questions during a snowstorm, or in the event of a power outage, please call our main number, 617-361-7900 and a staff member will receive the message and return your call. We work closely with the Milton Police Department to make sure everyone is safe and warm. If there are high winds or a power outage, your internet or cable may be temporarily out of service.

Lastly, if necessary, we will use our notification system through One Call Now for any emergency communication or announcements. These communications will occur via voice call communications as well as emails. For all voice call communications, please listen to the message in its entirety and allow the message to be repeated if necessary. Mass text message communications will only be used in extreme emergencies or safety situations if necessary.

I would encourage you to share this information with family members. If you would like to discuss further or have any questions regarding Fuller Village's emergency weather preparedness, please contact me directly at 617-361-9180.

Sincerely,

Molly S. Welch

Growth Through Learning

Update on Girls' Education in East Africa!

First of all, thank you! A very special thank you to the 41 Fuller Village residents who together have supported sixteen (18) girls in secondary school in 2025! What wonderful generosity!

Although the value of girls' education is well known, few girls in East Africa attend high school and even fewer graduate. Growth Through Learning (GTL) provides full secondary education scholarships for exceptional young women in Kenya, Uganda, and Tanzania who would otherwise be unable to afford education beyond eighth grade.

More than 2,150 girls have graduated from secondary school, thanks to GTL. And for the fifth straight year, 95 percent of GTL scholars have graduated. The graduation rate is especially remarkable given the challenges that GTL scholars face. Almost half come from single parent families or are orphans. The parents are mostly subsistence farmers or day laborers, not in the cash economy. Families live on the edge without health insurance or other support programs.

All of you who have contributed to GTL in the past will have received this year's newsletter in November. It's filled with stories about the scholars that we fund. If you would like more information about GTL, just let me know (mary_ann_millsap@msn.com).

We appreciate whatever you can give, either by mail (GTL, P.O. Box 390975, Cambridge, MA 02139) or on-line at our web-site (www.growththroughlearning.org). It costs only \$700 a year to support one girl's costs -- tuition, fees, and room and board. Your donation today will directly support over 300 scholars in 2026.

Thank you,

Mary Ann Millsap,
Past President, GTL Board
